REACH Annex XVII Scope Exclusion

Dear Valued Customer,

Please note that we have reviewed requirements of the European Chemicals Agency on scope of articles they indicate are to be included in REACH Annex XVII restricted articles.

This information limits the scope of included articles to those "for supply to the general public".

It also indicates that items that are internal components of a larger product or system that are infrequently touched by humans (i.e., during maintenance or replacement) are not considered within the scope as well. Batteries are indicated as examples of this exclusion.

It is our view that Maxwell ultracapacitor products do not fall within the scope of REACH Annex XVII. Therefore, Maxwell makes no representation or warranty regarding compliance with REACH Annex XVII for any of its products.

Best Regards,

Sebastien Altina
